M... My
recomendation
is...

ubunchu!

It is very
popular with
the users,
and it is the
hottest desktop
Linux distribution
available.

Isn't it Ubuntu not Ubunchu?

Pft!
That's stupid

Stop
messing
about!

It's bad,
you know.

**Stop talking
at the same
time!**

Wait, just
give me a
second and
hear me
out.

No Youtube!

Inferior Product!

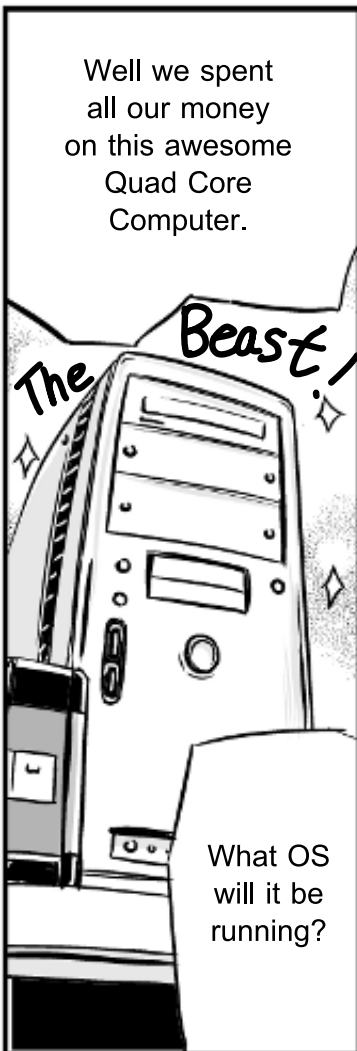

It sounds ok at first,
but it's really Linux.
You can't even watch
online videos.

The Command Line

Rocks!

The desktop is
not required
for Linux and
Youtube is a waste
of a
computer!

Well we spent
all our money
on this awesome
Quad Core
Computer.

The Beast!

What OS
will it be
running?

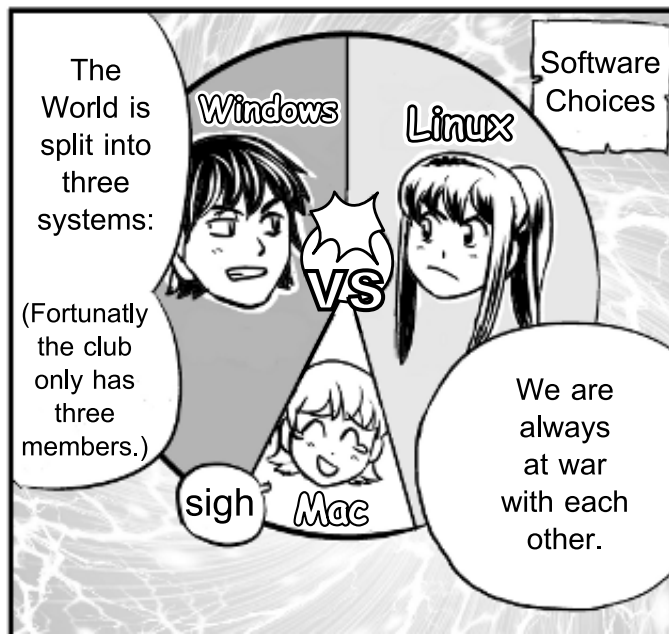

Windows XP!

Slackware!

Nothing
is as
good!

I'll fight you
for the OS!

As you can
see, it's a
mess here
at the sys-
admin club.

The
World is
split into
three
systems:

(Fortunately
the club
only has
three
members.)

Windows

Linux

Software
Choices

VS

sigh

Mac

We are
always
at war
with each
other.

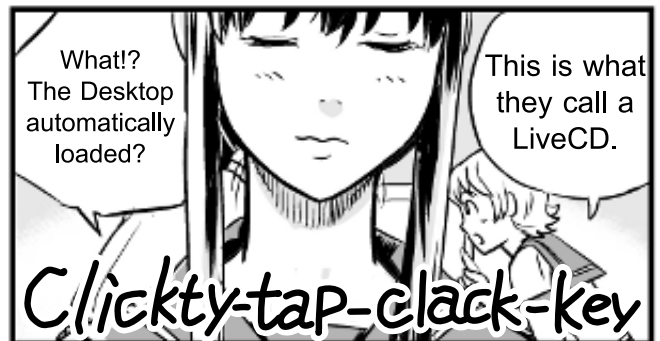

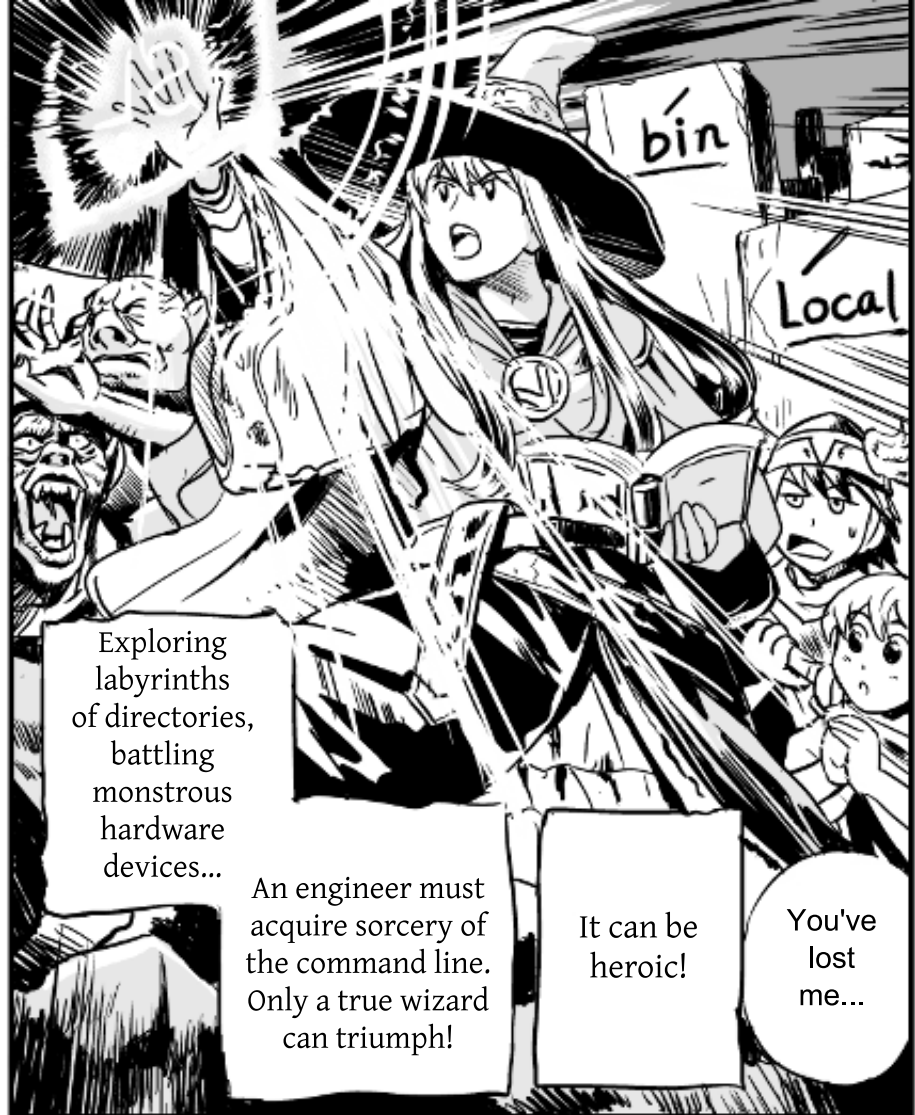

Ouch!

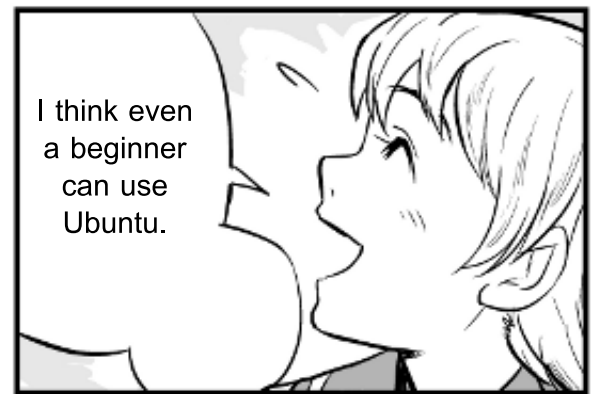

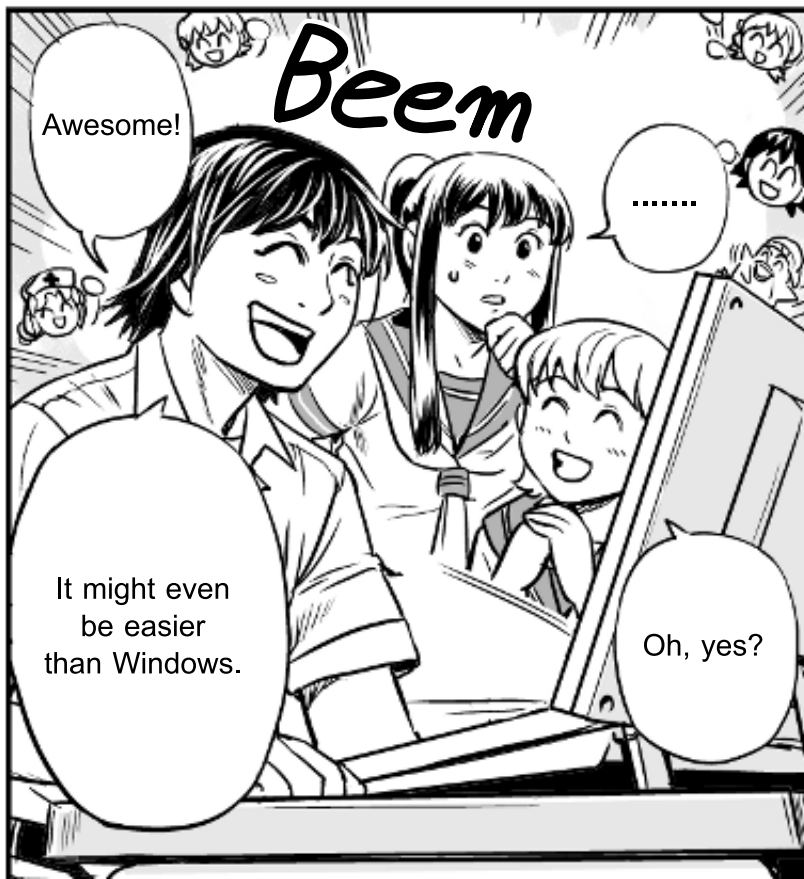

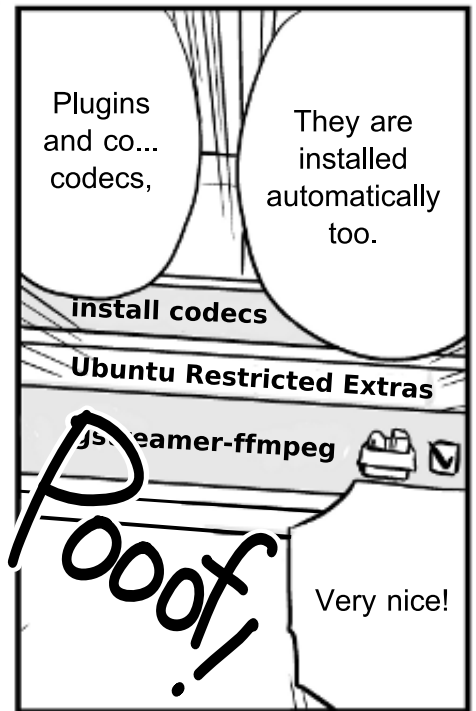

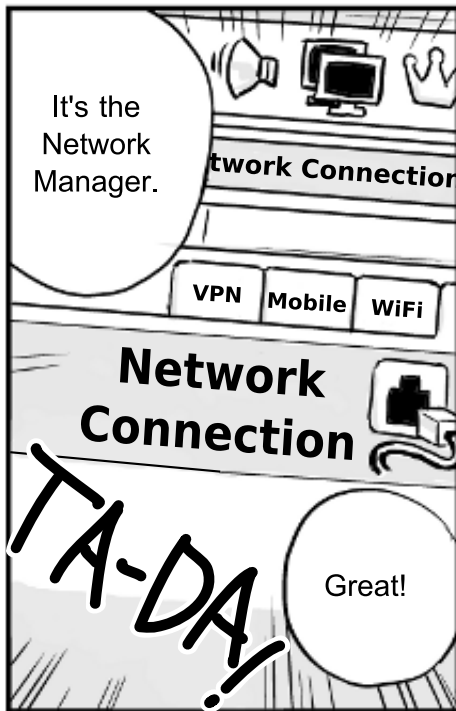

I have
tried to
solve this
situ...

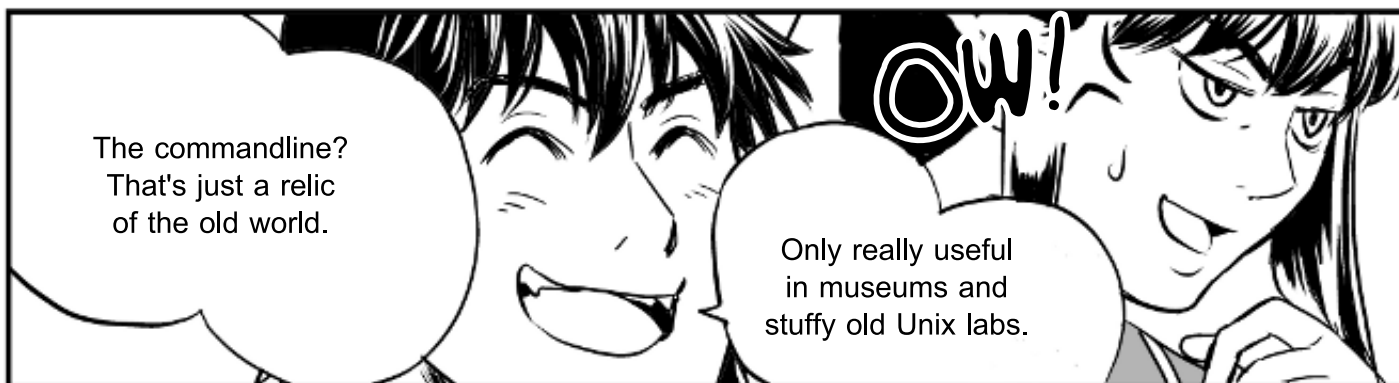

Again, not "Ubunchu" but Ubuntu

The commandline?
That's just a relic
of the old world.

OW!
Only really useful
in museums and
stuffy old Unix labs.

No!

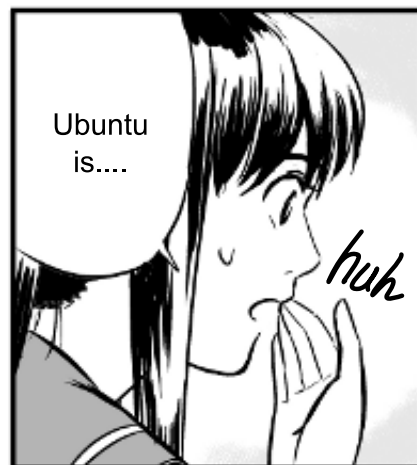

Absolutely
No!

The terminal is
important for
system
maintenance.

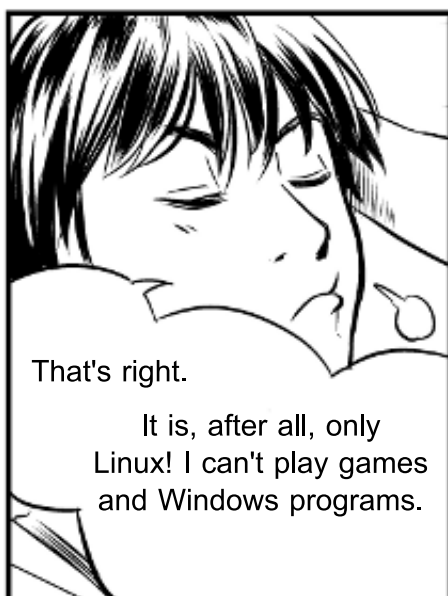

The package manager
is just complicating
the system.

This
seems like
nothing
more
than a bad
copy of
Windows!

Ubuntu
is....

huh

That's right.

It is, after all, only
Linux! I can't play games
and Windows programs.

Pfft!

Oh?

But,

If you
use Wine

It is likely
to be able
to play...

Any of your
sexy, Anime
Girl Games!

These are
a secret!

Egh!

Do you
have no
normal
games?

and...

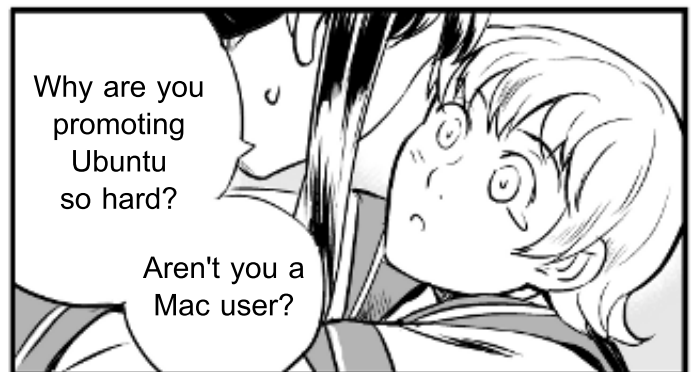

It has long term support,
it's easy and stable...

Akane, who wouldn't like
a server like that!?

Risa, Why...

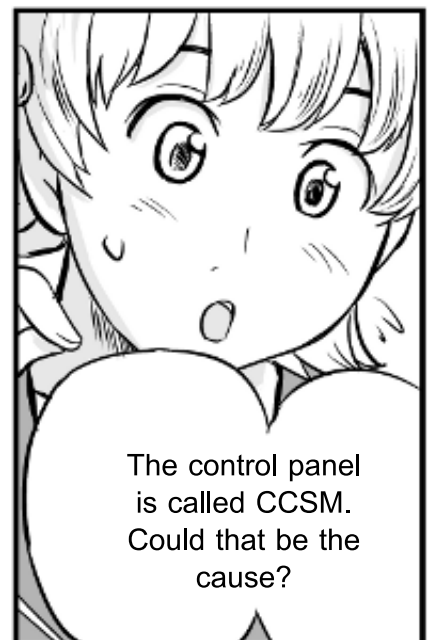

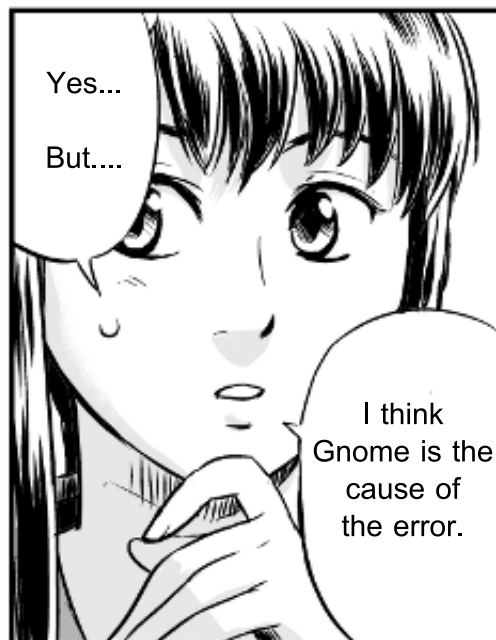

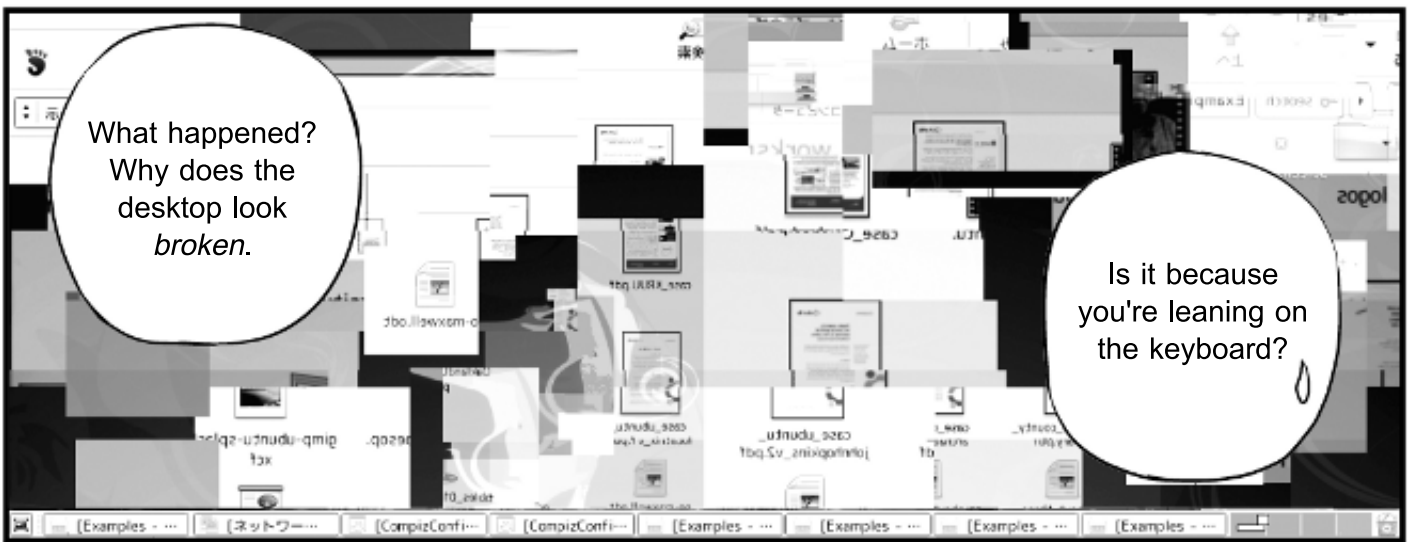

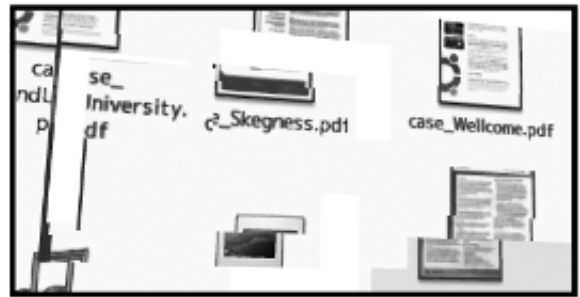

Why are you
promoting
Ubuntu
so hard?

Aren't you a
Mac user?

Because...

of course...

What a disaster,

It has
ceased up
because
of desktop
effects.

I already
said it was.

Damn
Fool.
w

I thought
I had got
rid of it
already.

Ah,

Now that we have
gone through the
trouble.

Eh!?

All three of
us can learn...

Together.

Not "Ubunchu", but "Ubuntu" Though she is persistent
